

POR ESO! FILM - DECEMBER 2014

Por Eso! sows, harvests and teachers in 9 communities that live in extreme poverty. Where people can hardly meet their primary human needs such as a varied diet, clean drinking water, healthcare, appropriate housing and access to good education. Where a one in three child suffers from chronic malnutrition because their diet consistently lacks the right nutrients. Where they use potatoes to stave off their hunger, the only crop that will resist the bleak climate.

We have made visible and sustainable improvements in *our* nine communities. But there are many other communities living in extreme poverty out there. **And that's why we won't stop!**

Why Por Eso?

How do we improve the situation?

1: We first build greenhouses and plant vegetable gardens hand in hand with the villagers and pupils. We then provide weekly agriculture and cooking classes to the children and mothers.

2: We visit the families and help them improve their housing situation. By installing kitchenettes and proving instructions on hygiene matters, amongst other things.

OUR GOAL

TO FIGHT DISEASE AND HUNGER

POR ESO! ACHIEVEMENTS UP TO 2014

750 families and children in 9 schools have a much healthier lunch and will continue to do so in the future

Weekly agriculture and cooking classes in the 9 communities

An abundance of vegetables: 61 greenhouses (of which 30 are family greenhouses) in the 9 communities

Improved housing conditions: To date 368 houses have been remodeled and have had kitchenettes installed

225 mothers have become agriculture experts

The Peruvian Ministry of Agriculture is making a large investment in improving the water supply for "our communities"

Dining areas with all the necessary kitchen utensils were implemented across the 9 schools

Emergency medical care was provided for dozens of families in need

There is now a very loyal group of Peruvian supporters based in Lima with a long-term compromise to support our work

THANKS TO YOU!

This is what we're achieving with the help of our supporters, but also because of our Peruvian heroes.. and to achieve all this in just under 6 years, **you have to be a little crazy:**
